**REBORN BEAUTIFUL**

05

*who we are* & **WHAT WE DO**

Environ has been built on science, beauty and care. It's how we've become a globally renowned, loved and trusted skin care brand.

We use the power of science to create products that make a real difference to people's lives - helping to keep skin looking at its healthiest, resilient best for life.

We'll keep making skin beautiful for generations to come, because we exist to keep skin beautiful for life.

*what we* **BELIEVE**

07

*We believe that everyone can live beautifully*

*And that no one should live with regrets*

*It is never too late, or too early, to start over*

*We know that you are more talented*

*and beautiful than you think*

*And that your true beauty is waiting to be revealed*

*You can do anything you put your mind to –*

*if your heart is in it too*

*We believe that doing what you love is like the air you breathe*

*And that vitamin A is like oxygen to your skin*

*No one, young or old, should deprive themselves of either*

*We know that when it comes to life there are no short cuts*

*And that your skin is no different – the easy way is never better*

*Be patient, your determination will be rewarded*

*We hold true to the pursuit of a beautiful life*

*And to the science of skin it's taken a lifetime to perfect*

*We exist to keep skin beautiful for life*

*You only have one skin. Look after it.*

*You only get one life. Live it.*

*your skin*

**REBORN BEAUTIFUL**

*world* **ACCLAIM**

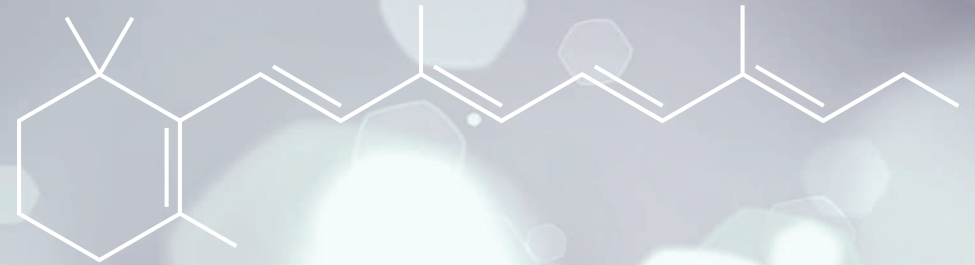

Since 1990, we've used the science of beauty to change the way we see skin care. 25 years later, we have 140 products in over 70 countries. We're trusted by consumers for our proven efficacy, recommended by professionals and preferred by international film stars and supermodels alike.

A black and white portrait of Dr. Des Fernandes, a man with dark hair, wearing a suit and tie, looking slightly to the right. The portrait is partially obscured by a semi-transparent white box containing text.

### *the* **PIONEER**

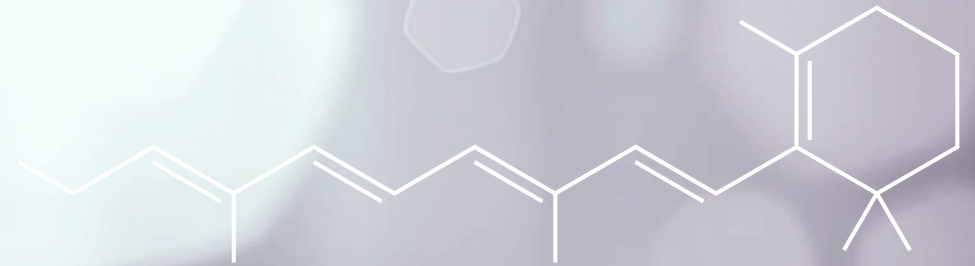

The introduction of vitamin A to skin care was groundbreaking. Dr Des Fernandes, rated among the top five plastic surgeons in the world, was a pioneer in the 80s. He was the first to use vitamin A in high enough doses to help counteract the harmful effects of the environment, pollution and stress - and help skin to be reborn from a damaged or weakened state to a healthier, more beautiful one.

Through intensive research he discovered the essential role vitamin A plays in skin health. He was determined to create a skin care range that would maintain healthy, beautiful looking skin for life.

### *the science* **OF BEAUTY**

Everything we do is done through Beautiful Science. With the power of science - and a little patience - Environ Skin Care can assist in restoring, reviving and revitalising skin, helping to keep it looking healthy and beautiful for life.

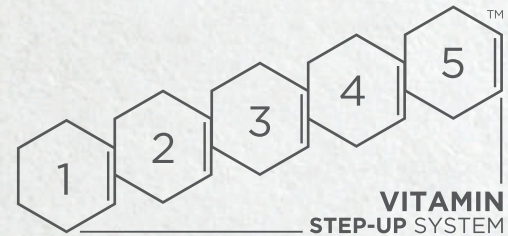

## VITAMIN A STORY

We believe that skin has a life. And that vitamin A is the “oxygen” skin needs to look beautiful and healthy for life. Vitamin A must be replaced daily for skin to appear healthier.

Which is why vitamin A has become the cornerstone ingredient in the Environ Skin Care philosophy. When you combine vitamin A with other essential skin nutrients like antioxidants and peptides, that’s when you begin to see – and feel – beautiful skin through science.

## VITAMIN STEP-UP SYSTEM™

Our skin has to become accustomed to extra vitamins being applied to it, particularly vitamin A which is vital for its health, radiance and youthfulness.

Environ created the industry-leading Vitamin STEP-UP SYSTEM™ to help skin become gradually more comfortable with increased levels of vitamin A and other ingredients from one level to the next so that skin can be reborn and look and feel healthier.

Environ’s range of moisturisers in the Essential Skin Care segment contain a series of products with increasing amounts of vitamin A as well as other vitamins and antioxidants. This series of moisturisers form the vital foundation to a healthier looking skin because they help to put back the essential skin nutrients that daily life and environmental stresses take away.

## **ESSENTIAL** *skin care*

VITAL. INTELLIGENT. BEAUTIFUL.

With vital vitamins, antioxidants and nutrients, the Essential Skin Care segment is the critical foundation for healthier looking, resilient skin. It's the must-have range for beautiful skin, and is the first step in the Environ Skin Care philosophy.
